

Our Vision

NKP+ envisions a world with zero new HIV infections, zero HIV-related deaths, and zero HIV-related discrimination and stigma. With this goal achieved, the organization aims to expand its focus on mental health.

Our Mission

To improve the quality of life for People Living with HIV (PLHIV) and their families by providing psychological and medical support, promoting human rights, reducing stigma and discrimination, and ensuring access to vital information and social protection.

About us

The network of Kolapur People Living with HIV (NKP+) established in 2004, supports People Living with HIV (PLHIV) and their families. Through care, peer support, and advocacy, NKP+ works to improve the quality of life, empower communities, and fight HIV-related stigma and discrimination.
